

Protosoft™ 32

Water Softener System

Specifications

- Flow metered delay automatic control valve
- 32,000 grains max hardness removal
- Efficient salt usage based on water usage
- Ceramic valve for longevity
- Commercial Grade resin with WQA Gold Seal Certified
- All components used are NSF certified

Max Hardness Removed	32,000 grains
Water Capacity	18GPM
Min. pH	7pH
Working Temperature	5-50 °C
Operating Voltage	120VAC
Inlet/Outlet Connection	¾" or 1"
Resin Spec	Sodium form 8% crosslinked gel strong acid cation resin

- Controller: NSF/ANSI 44, NSF/ANSI/CAN 61
- Resin: NSF/ANSI-61 Certified for Material Safety, WQA Gold Seal Certified

Package Contains

- Protosoft™32 Resin FPR Tank with Automatic Control
- Brine Tank
- Brine Tank Valve
- Water Bypass Valve with flow meter
- Water Connector (2)
